1. Definitions and Interpretation

1.1 "Agreement" means the applicable Study Space legal document in which this definition appears, including its schedules and appendices.

1.2 "Founder" means the individual identified as founder, owner, project lead, lead architect, final decision maker, commercial decision maker, and repository administrator for Study Space unless a later signed written agreement states otherwise.

1.3 "Contributor" means a trusted volunteer collaborator granted access to the Study Space repository or confidential project materials to contribute code, documentation, design, testing, planning, research, or related work.

1.4 "Project" means Study Space, including all current and future software, source code, documentation, designs, databases, configurations, architecture, services, APIs, plugins, applications, websites, brands, roadmaps, and related materials.

1.5 "Repository" means any Git repository, issue tracker, package registry, deployment console, documentation workspace, or related development system used for Study Space.

1.6 "Project Materials" means all code, documentation, designs, architecture diagrams, database schemas, templates, prompts, roadmaps, tests, configuration files, deployment scripts, and related work product created for or supplied to Study Space.

1.7 "Confidential Information" means non-public information concerning Study Space, including source code, architecture, credentials, security posture, user information, business plans, roadmaps, financial information, founder strategy, and contributor discussions.

1.8 "Pre-Existing IP" means technology, tools, libraries, snippets, templates, workflows, inventions, know-how, or other intellectual property owned or controlled by a party before contribution to Study Space or independently developed outside the Project.

1.9 "Open Source Software" means third-party software distributed under a license permitting use, copying, modification, or redistribution under stated conditions, including permissive, copyleft, source-available, and public-domain-equivalent materials.

1.10 "Personal Data" means information relating to an identified or identifiable person, including user account data, profile data, study records, messages, logs, identifiers, and authentication-related metadata.

1.11 "Commercial Success Event" means a qualifying sale, acquisition, exclusive license, revenue milestone, paid subscription launch, institutional contract, investment-linked liquidity event, or other monetization event expressly defined in this Agreement.

1.12 "Contribution Ledger" means the Founder-approved record of accepted contributions, role periods, deliverables, and weighting factors used only if an optional compensation model is activated.

1.13 Headings are for convenience and do not affect interpretation.

1.14 References to the Project include future versions, modules, integrations, deployment environments, mobile applications, desktop applications, APIs, plugin systems, and successor products.

1.15 A reference to writing includes a signed electronic agreement, repository policy acknowledged in writing, or other legally recognized electronic record approved by the Founder and counsel.

1.16 If there is a conflict between this document and mandatory law, mandatory law controls, and the affected clause should be narrowed rather than invalidating the entire document.

2. Compensation Terms

1. No Current Compensation

1.1 The Contributor is a volunteer and receives no salary, hourly wage, stipend, minimum payment, benefits, equity, partnership interest, ownership interest, or guaranteed compensation.

1.2 If Study Space never generates revenue, is never sold, or is never monetized, the Founder owes no compensation solely because the Contributor contributed.

1.3 Past contribution time alone does not create a debt, wage claim, equity claim, partnership claim, or implied commercial entitlement.

2. No Employment or Partnership

2.1 The relationship is not employment, agency, partnership, joint venture, fiduciary appointment, franchise, or contractor engagement unless separately signed.

2.2 The Contributor controls whether to volunteer time and may stop contributing subject to offboarding obligations.

2.3 The Contributor has no authority to bind the Founder or Study Space.

3. Optional Compensation Model A - Fixed Success Pool

3.1 If activated in writing, a defined percentage of Net Proceeds from a Commercial Success Event may be placed into a Contributor Success Pool.

3.2 Example for lawyer review: 3% of Net Proceeds from an acquisition above a threshold of [amount] is allocated to eligible contributors according to Contribution Ledger points.

3.3 Net Proceeds should be defined to subtract taxes, refunds, transaction costs, debts, investor preferences, legal fees, escrow/holdbacks, and required reserves.

4. Optional Compensation Model B - Milestone Bonus

4.1 If activated in writing, fixed milestone bonuses may be payable only when objective milestones occur.

4.2 Example: [amount] after first [currency amount] in collected net subscription revenue; [amount] after closing a qualifying acquisition; no payment if milestone is not reached.

4.3 Milestone bonuses should be capped and subject to continued compliance with confidentiality, IP, security, and offboarding obligations.

5. Optional Compensation Model C - Discretionary Founder Bonus

5.1 The Founder may voluntarily grant discretionary bonuses, but no pattern of discretionary payment creates a future obligation.

5.2 Any discretionary bonus must be documented at the time of payment and does not amend ownership or governance.

6. Contribution Ledger Mechanics

6.1 Only accepted, merged, documented, or Founder-approved work may be counted.

6.2 Suggested factors include complexity, security sensitivity, maintainability, originality, project impact, reliability, documentation, and timeliness.

6.3 Rejected, infringing, insecure, undocumented, harmful, or reverted work may be excluded.

7. Examples

7.1 Example 1: Study Space never launches commercially. No success compensation is owed.

7.2 Example 2: Study Space earns small revenue but no written model has been activated. No compensation is owed unless Founder separately agrees.

7.3 Example 3: A written 3% Net Proceeds pool is activated and an acquisition closes. Eligible contributors share the pool according to the approved ledger and caps.

8. Legal Review Required

8.1 Counsel must review wage/hour, volunteer, tax, securities, equity, contractor, partnership, and employment-law implications.

8.2 No contributor should begin work in reliance on future compensation without signing the final lawyer-approved version.

Legal Review Notes

1. This document is intentionally conservative; counsel should adapt for local wage laws and tax treatment.
2. Avoid equity-like language unless securities counsel approves.
3. Consider requiring contributors to sign IP assignment as a precondition to any success compensation.
