

Study Space Legal Package

07 Offboarding Agreement

STUDY SPACE

Offboarding Agreement

Access removal, confidentiality, and transition obligations

Field	Details
Version	0.1
Draft date	2026-07-14
Prepared for	Founder review and qualified attorney review
Status	Attorney-review draft only; not final legal advice; not ready for signature until reviewed and approved by qualified counsel.

Important Notice

This draft package is a project-specific working draft prepared for review, amendment, and approval by qualified legal counsel. It is not legal advice, does not create an attorney-client relationship, and should not be signed or relied upon until counsel confirms suitability for the governing law, facts, parties, and commercial plan.

Revision History

Version	Date	Description	Author
0.1	2026-07-14	Initial project-specific attorney-review draft generated from inspected Study Space repository and founder instructions.	Drafting assistant

Table of Contents

This Table of Contents is a placeholder. In Microsoft Word, select this paragraph, insert an automatic table of contents, or update fields after legal review.

1. Definitions and Interpretation
2. Main Terms
3. Project-Specific Provisions
4. Schedules and Appendices
5. Signature Pages
6. Legal Review Notes

1. Definitions and Interpretation

1.1 "Agreement" means the applicable Study Space legal document in which this definition appears, including its schedules and appendices.

1.2 "Founder" means the individual identified as founder, owner, project lead, lead architect, final decision maker, commercial decision maker, and repository administrator for Study Space unless a later signed written agreement states otherwise.

1.3 "Contributor" means a trusted volunteer collaborator granted access to the Study Space repository or confidential project materials to contribute code, documentation, design, testing, planning, research, or related work.

1.4 "Project" means Study Space, including all current and future software, source code, documentation, designs, databases, configurations, architecture, services, APIs, plugins, applications, websites, brands, roadmaps, and related materials.

1.5 "Repository" means any Git repository, issue tracker, package registry, deployment console, documentation workspace, or related development system used for Study Space.

1.6 "Project Materials" means all code, documentation, designs, architecture diagrams, database schemas, templates, prompts, roadmaps, tests, configuration files, deployment scripts, and related work product created for or supplied to Study Space.

1.7 "Confidential Information" means non-public information concerning Study Space, including source code, architecture, credentials, security posture, user information, business plans, roadmaps, financial information, founder strategy, and contributor discussions.

1.8 "Pre-Existing IP" means technology, tools, libraries, snippets, templates, workflows, inventions, know-how, or other intellectual property owned or controlled by a party before contribution to Study Space or independently developed outside the Project.

1.9 "Open Source Software" means third-party software distributed under a license permitting use, copying, modification, or redistribution under stated conditions, including permissive, copyleft, source-available, and public-domain-equivalent materials.

1.10 "Personal Data" means information relating to an identified or identifiable person, including user account data, profile data, study records, messages, logs, identifiers, and authentication-related metadata.

1.11 Headings are for convenience and do not affect interpretation.

1.12 References to the Project include future versions, modules, integrations, deployment environments, mobile applications, desktop applications, APIs, plugin systems, and successor products.

1.13 A reference to writing includes a signed electronic agreement, repository policy acknowledged in writing, or other legally recognized electronic record approved by the Founder and counsel.

1.14 If there is a conflict between this document and mandatory law, mandatory law controls, and the affected clause should be narrowed rather than invalidating the entire document.

2. Offboarding Terms

1. Trigger Events

1.1 Voluntary resignation, Founder removal, inactivity, security concern, breach, conflict, or project restructuring may trigger offboarding.

2. Access Removal

2.1 Repository, deployment, database, email, storage, API, chat, documentation, and credential access must be revoked promptly.

2.2 MFA devices and SSH keys must be removed.

3. Credential Rotation

3.1 Secrets accessed by the departing contributor should be rotated based on risk.

3.2 Compromised or uncertain credentials must be rotated immediately.

4. Return and Deletion

4.1 The contributor must return or securely delete local copies of Confidential Information, source code, user data, credentials, and non-public documents.

4.2 Archival copies may remain only where legally required and must remain confidential.

5. Knowledge Transfer

5.1 The contributor shall identify open work, undocumented decisions, known bugs, security concerns, local-only files, and pending pull requests.

6. Survival

6.1 Confidentiality, IP assignment, privacy, open-source, non-solicitation if enforceable, audit, and dispute obligations survive offboarding.

Schedule 1 - Offboarding Checklist

- Remove GitHub access
- Rotate secrets
- Disable deployment access
- Transfer issues/PRs
- Confirm deletion/return
- Record final date
- Preserve audit logs

Signature Pages

The parties should not sign this draft until qualified legal counsel has reviewed and approved it.

Legal Review Notes

1. Counsel should adapt any non-solicitation or non-disparagement provisions to local enforceability.
2. Coordinate with incident response if offboarding is security-related.
