

Study Space Legal Package

08 Open Source Policy

STUDY SPACE

Open Source Policy

Third-party software, attribution, approval, and license controls

Field	Details
Version	0.1
Draft date	2026-07-14
Prepared for	Founder review and qualified attorney review
Status	Attorney-review draft only; not final legal advice; not ready for signature until reviewed and approved by qualified counsel.

Important Notice

This draft package is a project-specific working draft prepared for review, amendment, and approval by qualified legal counsel. It is not legal advice, does not create an attorney-client relationship, and should not be signed or relied upon until counsel confirms suitability for the governing law, facts, parties, and commercial plan.

Revision History

Version	Date	Description	Author
0.1	2026-07-14	Initial project-specific attorney-review draft generated from inspected Study Space repository and founder instructions.	Drafting assistant

Table of Contents

This Table of Contents is a placeholder. In Microsoft Word, select this paragraph, insert an automatic table of contents, or update fields after legal review.

1. Definitions and Interpretation
2. Main Terms
3. Project-Specific Provisions
4. Schedules and Appendices
5. Signature Pages
6. Legal Review Notes

1. Definitions and Interpretation

1.1 "Agreement" means the applicable Study Space legal document in which this definition appears, including its schedules and appendices.

1.2 "Founder" means the individual identified as founder, owner, project lead, lead architect, final decision maker, commercial decision maker, and repository administrator for Study Space unless a later signed written agreement states otherwise.

1.3 "Contributor" means a trusted volunteer collaborator granted access to the Study Space repository or confidential project materials to contribute code, documentation, design, testing, planning, research, or related work.

1.4 "Project" means Study Space, including all current and future software, source code, documentation, designs, databases, configurations, architecture, services, APIs, plugins, applications, websites, brands, roadmaps, and related materials.

1.5 "Repository" means any Git repository, issue tracker, package registry, deployment console, documentation workspace, or related development system used for Study Space.

1.6 "Project Materials" means all code, documentation, designs, architecture diagrams, database schemas, templates, prompts, roadmaps, tests, configuration files, deployment scripts, and related work product created for or supplied to Study Space.

1.7 "Confidential Information" means non-public information concerning Study Space, including source code, architecture, credentials, security posture, user information, business plans, roadmaps, financial information, founder strategy, and contributor discussions.

1.8 "Pre-Existing IP" means technology, tools, libraries, snippets, templates, workflows, inventions, know-how, or other intellectual property owned or controlled by a party before contribution to Study Space or independently developed outside the Project.

1.9 "Open Source Software" means third-party software distributed under a license permitting use, copying, modification, or redistribution under stated conditions, including permissive, copyleft, source-available, and public-domain-equivalent materials.

1.10 "Personal Data" means information relating to an identified or identifiable person, including user account data, profile data, study records, messages, logs, identifiers, and authentication-related metadata.

1.11 Headings are for convenience and do not affect interpretation.

1.12 References to the Project include future versions, modules, integrations, deployment environments, mobile applications, desktop applications, APIs, plugin systems, and successor products.

1.13 A reference to writing includes a signed electronic agreement, repository policy acknowledged in writing, or other legally recognized electronic record approved by the Founder and counsel.

1.14 If there is a conflict between this document and mandatory law, mandatory law controls, and the affected clause should be narrowed rather than invalidating the entire document.

2. Policy Terms

1. Approval Requirement

1.1 No new dependency, copied code, asset, model, dataset, font, icon set, template, or snippet may be added without approval.

1.2 Approval must consider license, security, maintenance, provenance, and compatibility.

2. Allowed Licenses

2.1 Generally acceptable licenses may include MIT, BSD, Apache-2.0, ISC, and similar permissive licenses, subject to notice obligations.

2.2 Copyleft, network copyleft, source-available, non-commercial, no-derivatives, field-of-use, or custom licenses require legal review.

3. Prohibited Conduct

3.1 Do not copy code from Stack Overflow, GitHub, tutorials, AI outputs, proprietary products, or paid assets without verifying license rights.

3.2 Do not remove copyright notices.

3.3 Do not include secrets or private user data in examples, tests, or fixtures.

4. Attribution

4.1 Maintain a third-party notices file before public distribution.

4.2 Preserve copyright, license, and notice files required by dependencies.

5. Dependency Review

5.1 Run dependency/security scans before release.

5.2 Resolve version mismatches between requirements and the deployed environment.

5.3 Review psycopg binary redistribution terms before commercial distribution.

Schedule 1 - Current Dependency Review

Package	Version Observed/Specified	License Indication	Notes
Flask	3.1.3	BSD-3-Clause family / Pallets	Web framework. Confirm exact notice before distribution.
Werkzeug	3.1.8	BSD-3-Clause family / Pallets	WSGI/security utility dependency.
waitress	2.2.0	ZPL 2.1 commonly associated	Production WSGI server. Metadata unavailable locally; verify package notice.
Flask-WTF	1.1.1 in requirements; 1.3.0 observed locally	BSD	CSRF/form integration. Resolve version mismatch.
Flask-Limiter	3.0.5 in requirements; 4.1.1 observed locally	MIT via dependency metadata/classifiers	Rate limiting. Resolve version mismatch.
Flask-Talisman	1.0.0 in requirements; 1.1.0 observed locally	Apache-2.0	Security headers/CSP. Resolve version mismatch.
bleach	6.0.0 in requirements; 6.4.0 observed locally	Apache-2.0	HTML sanitization. Resolve version mismatch.
python-dotenv	1.0.0 in requirements; 1.2.2 observed locally	BSD-3-Clause	Local environment loading.
Flask-SQLAlchemy	3.0.4	BSD	ORM integration.
SQLAlchemy	2.0.29 in requirements; 2.0.50 observed locally	MIT	ORM/database toolkit. Resolve version mismatch.
Flask-Migrate	4.0.4	MIT	Alembic migration integration.
psycopg[binary]	3.3.1	LGPL-3.0-style project license with package-specific terms to verify	PostgreSQL adapter. Lawyer should verify binary redistribution posture.
redis	8.0.1	MIT commonly associated	Rate-limit/shared cache client. Metadata unavailable locally; verify package notice.

Schedule 2 - Approval Form

Item	License	Use	Approval	Legal Review
[Package/asset]	[License]	[Purpose]	[Approved by Founder?]	[Legal review needed?]

Signature Pages

The parties should not sign this draft until qualified legal counsel has reviewed and approved it.

Legal Review Notes

1. License metadata should be verified against package distributions, not only local metadata.
2. Add a THIRD_PARTY_NOTICES file before distribution.
3. No standalone Study Space LICENSE file was observed; choose outbound licensing strategy.
