

Study Space Legal Package

09 Developer Privacy and Data Handling Agreement

STUDY SPACE

Developer Privacy & Data Handling Agreement

User data, student data, logs, AI, backups, and integrations

Field	Details
Version	0.1
Draft date	2026-07-14
Prepared for	Founder review and qualified attorney review
Status	Attorney-review draft only; not final legal advice; not ready for signature until reviewed and approved by qualified counsel.

Important Notice

This draft package is a project-specific working draft prepared for review, amendment, and approval by qualified legal counsel. It is not legal advice, does not create an attorney-client relationship, and should not be signed or relied upon until counsel confirms suitability for the governing law, facts, parties, and commercial plan.

Revision History

Version	Date	Description	Author
0.1	2026-07-14	Initial project-specific attorney-review draft generated from inspected Study Space repository and founder instructions.	Drafting assistant

Table of Contents

This Table of Contents is a placeholder. In Microsoft Word, select this paragraph, insert an automatic table of contents, or update fields after legal review.

- 1. Definitions and Interpretation
- 2. Main Terms
- 3. Project-Specific Provisions
- 4. Schedules and Appendices
- 5. Signature Pages
- 6. Legal Review Notes

1. Definitions and Interpretation

1.1 "Agreement" means the applicable Study Space legal document in which this definition appears, including its schedules and appendices.

1.2 "Founder" means the individual identified as founder, owner, project lead, lead architect, final decision maker, commercial decision maker, and repository administrator for Study Space unless a later signed written agreement states otherwise.

1.3 "Contributor" means a trusted volunteer collaborator granted access to the Study Space repository or confidential project materials to contribute code, documentation, design, testing, planning, research, or related work.

1.4 "Project" means Study Space, including all current and future software, source code, documentation, designs, databases, configurations, architecture, services, APIs, plugins, applications, websites, brands, roadmaps, and related materials.

1.5 "Repository" means any Git repository, issue tracker, package registry, deployment console, documentation workspace, or related development system used for Study Space.

1.6 "Project Materials" means all code, documentation, designs, architecture diagrams, database schemas, templates, prompts, roadmaps, tests, configuration files, deployment scripts, and related work product created for or supplied to Study Space.

1.7 "Confidential Information" means non-public information concerning Study Space, including source code, architecture, credentials, security posture, user information, business plans, roadmaps, financial information, founder strategy, and contributor discussions.

1.8 "Pre-Existing IP" means technology, tools, libraries, snippets, templates, workflows, inventions, know-how, or other intellectual property owned or controlled by a party before contribution to Study Space or independently developed outside the Project.

1.9 "Open Source Software" means third-party software distributed under a license permitting use, copying, modification, or redistribution under stated conditions, including permissive, copyleft, source-available, and public-domain-equivalent materials.

1.10 "Personal Data" means information relating to an identified or identifiable person, including user account data, profile data, study records, messages, logs, identifiers, and authentication-related metadata.

1.11 "Student Data" means Personal Data, academic data, study records, notes, tasks, files, chat, or learning-related information relating to a student or learner.

1.12 "Sensitive Data" means passwords, tokens, secrets, authentication data, private notes, private messages, minors' information, security logs, and regulated educational or health-related information.

1.13 Headings are for convenience and do not affect interpretation.

1.14 References to the Project include future versions, modules, integrations, deployment environments, mobile applications, desktop applications, APIs, plugin systems, and successor products.

1.15 A reference to writing includes a signed electronic agreement, repository policy acknowledged in writing, or other legally recognized electronic record approved by the Founder and counsel.

1.16 If there is a conflict between this document and mandatory law, mandatory law controls, and the affected clause should be narrowed rather than invalidating the entire document.

2. Data Handling Terms

1. Access Limitation

1.1 Developers may access Personal Data only when necessary for approved development, testing, support, security, migration, or incident response.

1.2 Production data access should be exceptional, logged, and approved.

2. Authentication Data

2.1 Passwords must remain hashed.

2.2 Tokens must be hashed where feasible.

2.3 Raw passwords, reset links, and verification links must never be logged or shared.

3. AI and Integrations

3.1 User content may not be sent to external AI or integration providers without approved product design, privacy notice, data-processing terms, and security review.

3.2 AI outputs should support learning and not replace student work dishonestly.

4. Logs and Security Events

4.1 Security events are system-owned audit records.

4.2 Logs must avoid secrets and unnecessary user content.

4.3 Retention and deletion schedules require legal review before launch.

5. Backups and Deletion

5.1 Backups should be encrypted and access-controlled.

5.2 Deletion requests must be implemented consistently with backup retention limits and legal holds.

5.3 Account export must exclude password hashes and secrets.

6. Minors and International Users

6.1 Before public launch, Study Space needs a privacy policy addressing minors, student records, international transfers, consent, and user rights.

6.2 Education-sector integrations may trigger additional legal requirements.

Schedule 1 - Project Snapshot

Topic	Observed Study Space Detail
Project	Study Space
Founder	[Founder Legal Name]
Current owner statement	The Founder is the intended project owner, repository administrator, lead architect, final decision maker, and commercial decision maker unless changed by a signed written agreement.
Repository	Local project at C:\Users\ewanb\OneDrive\Desktop\All MY SH!T\Study Room; current Git remote observed as https://github.com/Deadking1i1/Flower-world.git .
Stack	Python Flask application with Jinja templates, SQLAlchemy models, Flask-Migrate/Alembic migrations, SQLite for local development, PostgreSQL-compatible configuration path, Waitress/Procfile deployment path, Redis-compatible rate-limit storage.
Features	User accounts, profiles, settings, notes, tasks, events, study sessions, flashcards, groups, feed, notifications, assistant summarization, PDF embedding with domain allowlist, SMTP-ready email verification/reset/change flows, security event logging, account export and deletion.
Documentation	README.md, SECURITY.md, .env.example, tests, migrations, and modular route/model/service files are present. No standalone LICENSE file was observed.
Validation	At inspection, tests passed and migration head was f7a9b1c3d5e6.

Schedule 2 - Current Technical Modules

Module	Observed Status
Authentication	Registration, login, logout, password change, password reset, email verification, email change, security events.
Dashboard/Hub	Dashboard summaries, study hub, quick notes, events, PDF embedding by allowlist, placeholder Spotify connection.
Notes/Tasks	Notes hub, notes, task planner, state transitions, pagination, ownership checks.
Study Tools	Timer, study sessions, flashcards, assistant summarization.
Community	Groups, feed, posts/comments model, public notes/flashcards.
Account/Privacy	Profile, settings, export, deletion, security history, normalized UserProfile/UserSettings.

Legal Review Notes

1. Counsel should prepare public Privacy Policy, Terms, DPA, subprocessors list, retention policy, and child/minor consent strategy.
2. Jurisdiction-specific laws may include GDPR, UK GDPR, POPIA, COPPA, FERPA-like rules, and state privacy laws depending on launch markets.
